Sexual Activity Agreement

We the below signed parties, understanding the importance of affirmative consent prior to and during sexual activity, assert the following:

1. We want to engage in sexual activity.
2. We are old enough to legally consent to sexual activity in the jurisdiction where this agreement is signed.
3. We agree to immediately cease sexual activity if any below signed party uses the safe word _____.

We agree that consent does not end with execution of this agreement and that positive verbal consent is an important part of sexual activity. We will ask our partners "is this okay?" or "do you want to...?" while engaging in sexual contact and adjust behavior in accordance with responses.
